Mapping the Field of Adult and Continuing Education

An International Compendium

Edited by Alan B. Knox, Simone C. O. Conceição, and Larry G. Martin

The field of Adult and Continuing Education (ACE) has long been influential beyond its already porous borders and continues to be a source of important ideas, inspiration, and innovative practices for those in disciplines such as educational administration, social work, nursing, and counseling. Recognizing this, the American Association for Adult and Continuing Education commissioned the editors to create this compendium, which provides an invaluable resource to readers already established in the field, those entering the field, and to myriad neighbors of the field as well.

This four-volume Compendium (also available as a combined e-book) brings together a host of national and international contributors to map the field of ACE in a series of brief articles addressing key theories and practices across its many domains and settings. These are arranged in four volumes, available either individually or as a set:

Volume One: Adult Learners

Volume Two: Teaching and Learning
